

STANLEY

Handling your safety

Sprinter 190

powered stair climber

www.stanleyhandling.co.uk

A powered stair climber provides a quick, safe, and efficient material handling solution for transportation on the stairs.

With a carrying capacity of up to 190Kg, the Sprinter 190 stair climber trolley will allow you to manoeuvre awkward loads up and down stairs with just a single operator.

A Stanley stair climber not only provides convenience and a reduction in labour required to move heavy loads, but the lightweight machine can significantly reduce the potential risk of accidents and personal injury on the stairs.

With a wide range of accessories available, each stair climber can be fully customised to move a wide range of products safely on stairs, kerbs and uneven steps.

The puncture proof tyres, simple touch button control, and rechargeable battery with power monitor are just a few of the features which make the Sprinter 190 a market leading powered stair climber.

Benefits

- Highly portable
- Simple push button control
- Quick connect safety straps
- Removable lithium battery technology for in-transit charging, with power display meter
- Adjustable handle for varying load heights
- One-man operation reduces manpower
- Operates on tight landings
