TRUCK DIMENSIONS

NOTE:

Care must be exercised when handling elevated loads. When the carriage and/or load is elevated, truck stability is reduced. It is important that the mast tilt in either direction is kept to a minimum when loads are elevated.

Operators must be trained and adhere to the instructions contained in the Operating Manual.

Hyster products are subject to change without notice. Lift trucks illustrated may feature optional equipment.

All values are nominal values and they are subject to tolerances. For further information, please contact the manufacturer.

Values may vary with alternative configurations.

▼ These values may vary of +/- 5%.

NOTICE

Care must be exercised when handling elevated loads. When the carriage and/or load is elevated, truck stability is reduced. It is important that the mast tilt in either direction is kept to a minimum when loads are elevated.

Operators must be trained and must read, understand and follow the instructions contained in the Operating Manual.

All values are nominal values and they are subject to tolerances. For further information, please contact the manufacturer.

Hyster products are subject to change without notice. Lift trucks illustrated may feature optional equipment. Values may vary with alternative configurations.

C € Safety:

This truck conforms to the current EU requirements.

PRODUCT FEATURES

DEPENDABILITY

- MOSFET DC controller for traction and hydraulic controls.
- Battery discharge indicator (Red - Amber - Green status).
- Welded fork construction makes them highly resistant to torsion and heavy loads
- In case of collision components and batteries are protected with special designed cover.

PRODUCTIVITY

- Compact chassis design to improve accessibility.
- Operator-friendly tiller head controls for productive load handling.
- Standard anti-roll back system.
- Stabilizing wheel to maximize stability when turning.
- Single load wheels.

ERGONOMICS

- Ergonomic tiller head designed for maximum operator comfort.
- Low effort controls ergonomically placed to reduce operator fatigue.
- Adjustable performance setting to suit specific operation conditions.
- Responsive butterfly switches give a smooth and controlled speed in either travel direction and allow controlled traction braking.
- Adjustable Creep-speed function for manoeuvring in dense areas – tiller arm in upright position or lowered.

LOW COST OF OWNERSHIP

- On board 10A HF charger for on-site recharge.
- Optimized battery packs to ensure maximum time of operation.
- Easy access to motor and key components to reduce downtime.

SERVICEABILITY

- Ouick accessibility for exchange of batteries.
- Maintenance free sealed lead acid batteries.

STRONG PARTNERS. TOUGH TRUCKS." FOR DEMANDING OPERATIONS, EVERYWHERE,

Hyster supplies a complete range of warehouse equipment, IC and electric counterbalanced trucks, container handlers and reach stackers. Hyster is committed to being much more than a lift truck supplier.

Our aim is to offer a complete partnership capable of responding to the full spectrum of material handling issues: Whether you need professional consultancy on your fleet management, fully qualified service support, or reliable parts supply, you can depend on Hyster.

Our network of highly trained dealers provides expert, responsive local support. They can offer cost-effective finance packages and introduce effectively managed maintenance programmes to ensure that you get the best possible value. Our business is dealing with your material handling needs so you can focus on the success of your business today and in the future.
